ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series*:

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith

Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager
Water Management Branch

FIRST NATIONS WATER RIGHTS REPORT

BAND: Canoe Creek

ADDRESS: General Delivery, Dog Creek, B.C., V0L 1J0

CHIEF: Agnes Snow

PHONE: 440-5645

FAX: 440-5679

AFFILIATION: Cariboo Tribal Council

LOCATION:

The Canoe Creek Band occupies 12 reserves in the Williams Lake area: Canoe Creek 1, 2 and 3, Copper Johnny Meadow 8, Dog Creek 1, 2, 3 and 4, Fish Lake 5, Spilmouse 4, Tinmusket 5A, and Toby Lake 6. Canoe Creek 1, 2, and 3, and Dog Creek 1, and 2 are the only reserves with water rights.

- Canoe Creek 1 is located on the north side of Canoe Creek, covering part of Timaskin Brook, and occupies approximately 36.6 hectares.
- Canoe Creek 2 is located on Canoe Creek, south-east of Canoe Creek Reserve No. 1, and occupies approximately 1,805.0 hectares.
- Canoe Creek 3 (Dog Creek Reserve) is located on the east bank of the Fraser River, south of Dog Creek and occupies approximately 2,805.0 hectares.
- Copper Johnny Meadow 8 is located north of Meadow Lake on Copper Johnny Creek and occupies approximately 32.4 hectares.
- Dog Creek 1 is located on Dog Creek, its north east corner meeting the mouth of Tinmusket Creek and its south west corner touching the mouth of Harold Brook. It occupies approximately 144.7 hectares.
- Dog Creek 2 is located on Dog Creek, east of Snardie Creek and occupies approximately 218.5 hectares.
- Dog Creek 3 is located on Dog Creek, north-east of Dog Creek Reserve No. 2, and occupies approximately 8.1 hectares.
- Dog Creek 4 is located on the left bank of the Fraser River, with its southern edge touching Dog Creek, and occupies approximately 183.7 hectares.
- Fish Lake 5 is located on the right bank of Canoe Lake and occupies approximately 41.0 hectares.
- Spilmouse 4 is located on Canoe Creek, south-west of Fish Lake, and occupies approximately 161.8 hectares.
- Tinmusket 5A is the most eastern reserve, located just north of Cuningham Lake, and occupies approximately 16.2 hectares.

- Toby Lake 6 is west of Tinmusket Reserve 5A, east of Copper Johnny Meadow 8 and north east of Alberta Lake, occupying approximately 129.5 hectares.

According to the Ministry of Finance, the Band has a reserve population of 230 people and this includes registered and non registered members. Its total population including registered and non registered members living on and off the reserve is 548.

South of Williams Lake, these reserves sit at elevations ranging from approximately 3500 to 4200 feet above mean sea level. They experience climate ranging from an average daily temperature of -5 degrees centigrade in January to less than 20 degrees centigrade in July. The average annual rainfall range is less than 30 centimetres.

Water courses of significance:

- Big Bar Creek, which is located southeast of Canoe Creek Reserves 1 and 2 and flows southwest into Fraser River.
- Canoe Creek, which flows in a westerly direction into the Fraser River. It passes through Fish Lake Reserve 5, Spilmouse Reserve 4, Canoe Creek Reserve 2 and Canoe Creek Reserve 1.
- Dog Creek, which is north of Canoe Creek and also flows into the Fraser River in a westerly direction. Dog Creek passes through Dog Creek Reserves 3,2,1, and 4.
- Grant Creek, which is a tiny creek that flows from Onion Lake into Canoe Creek, whereby Canoe Creek Reserve 2 is also situated.
- Harold Brook, which is on the right bank of Dog Creek and flows into Dog Creek at the western border of Dog Creek Reserve No. 1.
- Meadow Lake, which is located south of Copper Johnny Meadow Reserve No. 8.
- Pigeon Lake, which is located east of Canoe Creek 2, between White Lake and Meadow Lake.
- Snardie Creek, which is east of Tinmusket Creek and flows in a north westerly direction into Dog Creek.
- Timaskin Brook, which flows in a southerly direction through Canoe Creek Reserve No. 1 into Canoe Creek.
- Tinmusket Creek, which flows in a northerly direction into Dog Creek, touching the eastern edge of Dog Creek Reserve No. 1.
- Village Spring, which is located just west of Timaskin Brook, north of Canoe Creek Reserve

No. 1.

- White Lake, which is located approximately four miles east of Canoe Creek Reserve No. 2.

WATER ALLOCATIONS:

The water rights of the Canoe Creek Band have been recorded or affected by five actions of government over the years:

1) Allotments by the Indian Reserve Commissioners.

Following confederation, the Province and the Dominion established an Indian Reserve Commission to reserve lands for Indians without their agreement and for transfer of those lands to the Dominion. In setting apart lands for reserves, the Reserve Commissioner made it their practice to allocate water with their lands. It is understood that this practice was unique among Indian Reserves in Canada and the authority of these Commissioners to allot water rights has always been disputed by the Province.

An allocation made to a non-existent Canoe Creek reserve and allocations granting fishing rights to the Canoe Creek Band were also made by the Indian Reserve Commission. These portions of the Minute of Decisions are outlined under the "Other Information" section of this report.

- 2) Lieutenant Governor in Council approval by Order in Council of the granting of water rights.
- 3) Determinations of the Board of Investigation under the Water Act, 1914 of claims of the Department of Indian Affairs, and subsequent issue of water licences.
- 4) Granting of water licences from Federal Government application for licences for the use of water on reserves.
- 5) Actions to amend rights under licence pursuant to provisions in the *Water Act*.

HISTORY, CURRENT STATUS, AND NOTES:

The history of water rights, the current status of rights and notes for the Canoe Creek Band with respect to the relevant water sources on Canoe Creek 1, Canoe Creek 2, Canoe Creek 3, Dog Creek 1 and Dog Creek 2 are as follows:

CANOE CREEK #1

Canoe Creek

History:

July 21, 1881

Minute of Decision of the Indian Reserve Commission, described a reserve with the same boundaries as Canoe Creek Reserve 1, and allotted:

"One hundred inches of water is allotted from Canoe creek for the use of the Reserve."

*Note: The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. This rate of flow over a 120 day irrigation season would be 6.664 acre feet for each miner's inch.

Jan 9, 1891

By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Canoe Creek Band for Canoe Creek 1.

"Two hundred inches of water from a stream formed by the overflow in Spring of Lakes, in the vicinity of R. Valenzuela's meadows, and about 15 miles south-east from the Reserve, with the right to store said water in a chain of lakes, situate four miles west of Rocky Spring, and to tap said lakes in order to convey said 200 inches of water by a dry water course into Canoe Creek at the upper crossing, and to take the same quantity of water out of Canoe Creek by means of the present ditch on the Reserve."

The identity of the stream is unknown. Long Lake, White Lake, Pigeon Lake and Meadow Lake are a chain of lakes approximately 15 miles southeast of Canoe Creek 1; thus, the lakes referred to in the Order in Council may be these lakes.

This allocation was also made subject to existing records.

Feb 19, 1925

The Comptroller of Water Rights issued Conditional Water Licence 7943 to Indian Agent, MacLeod, in trust for the First Nations' people of Canoe Creek Reserve No. 1. This licence was given a date of precedence of November 4, 1924 and authorized the diversion and use of 100 acre feet of water a year from Canoe Creek for the irrigation of 33 acres of Canoe Creek Reserve No. 1, provided that of this quantity 10,000 gallons a day could be used for domestic purpose.

Jan 15, 1940

The Comptroller of Water Rights issued Final Water Licence 10845 to the Director of Indian Affairs in substitution of Conditional Water Licence 7943. This licence bears a date of precedence of November 4, 1924 and authorizes the diversion of 93 acre feet of water per annum from Canoe Creek, a tributary of Fraser River. The water was allotted for purpose of irrigation on 31 acres within Canoe Creek Reserve No. 1. to be used from April 1 to September 30.

A lesser quantity of water was authorized with the issue of Final Water Licence 10845 as being sufficient for the area being irrigated. There is nothing on file to indicate why incidental domestic purpose was not authorized under Final Water Licence 10845.

Nov 16, 1965

The Comptroller of Water Rights received notification from the Indian Commissioner of B.C. that Chief Tommy Billy of the Canoe Creek Reserve No. 2 had witnessed a Mr. Jack Koster exercising undue control over the intake works on Canoe Lake near Canoe Creek, B.C.

Dec 13, 1965

Odynsky, District Engineer, concluded that the problem between Canoe Creek Band and Mr. Koster appeared to be a dispute as to whether or not the dam was on Crown Land or on Reserve No.5. A review of the water licence survey for Final Water Licence 11975, determined the dam to be off Canoe Creek Reserve and on Crown Land.

Dec 16, 1965

A letter from the Comptroller of Water Rights to the Indian Commissioner of B.C., J. V. Boys, notes that the B.C. Cattle Company is the sole licensee for storage on Canoe Lake and therefore Mr. Koster would have the right to regulate the control works of the dam in accordance with the terms of his water licences.

Current Status:

There are five water licences and six applications on Canoe Creek. Of the licences;

- 2 authorize the use of water for storage non-power purposes, from 369 to 424 acre feet per annum.
- 2 authorize the use of water for irrigation purposes, from 93 to 369 acre feet per annum.
- 1 authorizes the use of water for domestic and irrigation purposes, authorizing 5,000 gallons a day for domestic and 424 acre feet per annum for irrigation.

Of the applications:

- 2 are for the right to divert water for irrigation purposes, from 500 to 1,000 acre feet per annum.
- 1 is for the right to divert water for domestic and irrigation purposes, for a total quantity applied for of 3,000 gallons a day for domestic and 75 acre feet per annum for irrigation.
- 1 is for the right to divert water for irrigation and conservation-stored water purposes both at, 1000 acre feet per annum.
- 1 is for the right to divert water for power-residential purposes at 1 cubic feet per second.
- 1 is for the right to divert water for irrigation and storage non-power purposes, both purposes at 250 acre feet annum.

Canoe Creek Band holds one current licence on Canoe Creek, Final Water Licence 10845, which is third in priority. The band also has an outstanding water application, Z103469, on Big Bar Creek, which includes the redirection of water from Canoe Creek.

Water Survey of Canada operated station 08LE074 on Canoe Creek above east Canoe Creek from 1965 to 1974. During this period, the station recorded a minimum daily discharge of .011 m³/sec (5.403 cubic feet/sec) on August 14 1973, and a maximum daily discharge of .153 m³/sec (.388 cubic feet/sec) on April 18, 1966. Mean monthly discharges reach a low of .037 m³/sec in August, rise to a high of .086 m³/sec in May.

Notes:

1. The allocation of water from Canoe Creek made by the Indian Reserve Commission has not been formally recognized by the Province.
2. There is no indication that a water licence has ever been issued to the Canoe Creek Band authorizing the redirection of water from Canoe Creek as outlined in the Order in Council, dated January 9, 1891.
3. The issuance of Final Water Licence 10845 (which substituted Conditional Licence 7943) resulted in the loss of licensed water rights for the Canoe Creek Band.

Timaskin Brook

History

Jan 9, 1891

By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Canoe Creek Band for Canoe Creek 1.

"Twenty inches of water from a small stream running through the Reserve at the village".

Note: Water Rights maps indicate that Timaskin Brook flows south towards the east side of the reserve, where the village is shown to be located. Thus, the unnamed stream may be Timaskin Brook. This allocation was made subject to existing records.

Sept 30, 1931

The Comptroller of Water Rights issued Conditional Water Licence 11033 to the Superintendent General of Indian Affairs, in accordance with an application filed by the same office. This licence was given a date of precedence of March 20, 1931, and authorized the diversion and use of 5,000 gallons of water a day from Timaskin Brook. The area and description of the lands upon which the water could be used were *"that part of Canoe Creek, Indian Reserve No. 1, on which is situate a dwelling and appendages thereto."*

Apr 20, 1931

In connection with Conditional Water Licence No. 11033, a permit was granted to the Director of Indian Affairs, under Section 49, Right of Way over Provincial Crown Land.

Oct 1, 1934

The Comptroller of Water Rights granted an extension of time, to December 31, 1938 for completion of works associated with Conditional Licence 11033.

Jan 15, 1940

The Comptroller of Water Rights issued Final Water Licence 10846 (in substitution of Conditional Water Licence 11033) to the Director of Indian Affairs on behalf of the Canoe Creek Band, authorizing the diversion and use of water from Timaskin Brook. This licence bears a date of precedence of March 20, 1931 and authorizes the diversion of 5,000 gallons a day, to be used throughout the year for domestic purposes. The land upon which the water may be used is Canoe Creek Reserve No. 1.

Feb 20, 1940

A memo from the Forest Branch indicates that there is a *"Permit under Section 20, Right of Way over Crown Land, granted to: The Director of Indian Affairs, Ottawa. In connection with: Final Water Licence No. 10846."*

Current Status:

Final Water Licence 10846, in the name of the Canoe Creek Band, is the only active licence on Timaskin Brook.

Water Survey of Canada has no records for this creek and there is no other current information on file with regards to water availability.

Notes:

1. The Order in Council allotted a greater quantity of water, 20 inches (approximately 301,500 gallons of water a day), than what is authorized to be diverted from Timaskin Brook. However, Timaskin Brook may or may not be the unnamed stream referred to in the Order in Council.
2. Under current licensing practices Final Water Licence 10846 would be issued for waterworks purpose. The amendment of this licence to waterworks purpose could lead to designation of the Timaskin drainage area as a Community Watershed under the Forest Practices Code.

Village Spring**History:**

Jan 4, 1965

The Comptroller of Water Rights issued Conditional Water Licence 29527 to the Director of Indian Affairs in accordance with an application filed by the same office. This licence authorizes the diversion and use of water from Village Spring. The licence has a date of precedence of June 26, 1963 and allots 5,000 gallons a day, year-round for waterworks purpose on Reserve No.1, Canoe Creek, lying within Lillooet District.

In connection with Conditional Water Licence 29527, Permit over Crown Lands 5661 was granted to the Director of Indian Affairs, on behalf of the Canoe Creek Band. This permit authorized occupation of Crown Land for the construction and maintenance of works.

Current Status:

Conditional Water Licence 29527, in the name of the Canoe Creek Band, is the only active water licence on Village Spring. There is no recent information on file with respect to the exercise of rights under this licence.

Notes:

1. Conditional Water Licence 29527 authorizes the diversion of water for waterworks purpose. Thus, Village Spring drainage area could be designated as a Community Watershed under the Forest Practices Code.

CANOE CREEK #2**History:****Jan 9, 1891**

By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Canoe Creek Band for Canoe Creek 2.

"One hundred inches of water from a creek about five miles east of the Reserve, to be diverted at the head of the ditch now used."*

*Note: The identity of the creek is unknown and this allocation was made subject to existing records.

Notes:

1. There is no evidence of any allocations made under the *Water Act 1914* from any water sources east of Canoe Creek 2.

Grant Creek**History****July 21, 1881**

A Minute of Decision of the Indian Reserve Commission described a reserve known as Canoe Creek 2 and allotted to the use of the Canoe Creek Band,

"The water flowing naturally through this land is reserved for the use of the Indians."

Grant Creek flows through Canoe Creek 2.

Nov 3, 1924

At a final hearing before the Board of Investigation, acting under the Water Act of 1914, the Board determined *"that a valid water record affecting the said claim was made under authority of an Act passed prior to the 12th day of March, 1909, and that, under the said water record, the*

Canoe Creek tribe or band of Indians was granted a right to take and use water from Grant Creek, a tributary of Canoe Creek, for irrigation and domestic purposes on the Canoe Creek Indian Reserve, being Reserve No.2 of the said tribe or band." The Order of the Board, numbered 8005, set out that a Conditional Water Licence should be issued which would:

- (i) provide for the diversion of water from Grant Creek.
- (ii) take precedence from the 23rd day of February, 1891 and,
- (iii) authorize diversion of a maximum of 135 acre feet per annum for irrigation of 45 acres of Canoe Creek Reserve No. 2, provided that 3000 gallons a day of water could also be used throughout the year for domestic purpose.

Nov 3, 1924

The Comptroller of Water Rights issued Conditional Water Licence 7804, which embodied the terms and conditions set out in Board Order 8005.

Jan 15, 1942

The Comptroller of Water Rights issued Final Water Licence 11576 in substitution of Conditional Water Licence No. 7804 to the Director of Indian Affairs on behalf of the Canoe Creek Band. This licence bears a date of precedence of February 23, 1891 and authorizes the diversion of 24 acre feet per annum from Grant Creek, for irrigation purposes. The water may be used from April 1 to September 30 on 8 acres of Westerly portion of Canoe Creek Reserve No. 2.

In connection with Final Water Licence No. 11576, a permit was granted to the Director of Indian Affairs authorizing a right-of-way over the Crown lands lying between Canoe Creek Reserve No. 2 and District Lot No. 2532, Lillooet.

A lesser quantity of water was authorized with the issue of Final Water Licence 11576 as being sufficient for the area to be irrigated. The Engineer's Report for the licence indicated that there appeared to be no one living in the vicinity of the licence and incidental domestic was not included as an authorized purpose under Final Water Licence 11576.

Current Status:

Final Water Licence 11576, in the name of the Canoe Creek Band, is the only active licence on Grant Creek. There is no recent information on file with respect to the exercise of rights under this licence.

Water Survey of Canada operated station 08NJ054 on Grant Creek near Slocan from 1927 to 1929. During this period, the station recorded a minimum daily discharge of .001 m³/sec on April 29, 1929. Mean monthly discharges reach a low .006 m³/sec in September, rise to a high

of .009 m³/sec in June.

Notes:

1. The allocation made by the Indian Reserve Commission with regards to all water sources flowing through Canoe Creek 2, which includes Grant Creek, has not been formally recognized by the Province.
2. The issue of Final Water Licence 11576, in substitution of Conditional Water Licence 7804, resulted in the loss of licensed rights on Grant Creek with respect to the Canoe Creek Band.

White Lake, Pigeon Lake and Meadow Lake

History:

July 21, 1881

A Minute of Decision of the Indian Reserve Commission described a reserve with the same boundaries as Canoe Creek 2, and allotted to the use of the Canoe Creek Band,

"The right to the water of White Lake, "Par-ous, and Cark-sil-a-wis lakes, situated in the direction of the 70 mile house on the Cariboo Wagon road, with power to divert the same through a low valley to this reserve."*

*Note: The sketch accompanying the Minute of Decision shows Par-ous and Cark-sil-a-wis Lakes in the same vicinity as Pigeon and Meadow Lakes. Thus, these two lake may have been renamed Pigeon and Meadow Lakes.

Current Status:

There are no active licences reported on White, Pigeon or Meadow Lakes.

Notes:

1. The allocation of water made by the Indian Reserve Commission, as it refers to White Lake, Pigeon Lake and Meadow Lake, has not been formally recognized by the Province.
2. Par-ous and Cark-sil-a-wis Lakes have been renamed.

CANOE CREEK #1 & CANOE CREEK #2

Big Bar Creek

History:

Feb 1, 1988

The Canoe Creek Band filed an application for the right to divert 1,000 acre feet of water from Big Bar Creek for irrigation purpose for use on reserves Canoe Creek 1 and Canoe Creek 2. The Band intended to divert the water from Big Bar Creek into Indian Meadows and Canoe Creeks and provide storage in Long Lake.

Current Status:

There are two licences and two applications on Big Bar Creek between Little Big Bar Lake and Big Bar Lake. There are no water licences on Big Bar Creek for the benefit of the Canoe Creek Band.

The two licences authorize the right to divert water for conservation purposes, for a total quantity authorized of 198.40 acre feet per annum.

One of the outstanding applications on Big Bar Creek is in the name of the Canoe Creek Band. No recent information is on file to indicate the current status of this application. The other application on Big Bar Creek is for the right to divert 1,000 acre feet per annum for irrigation purpose and 1,000 acre feet per annum for conservation purpose.

Water Licensing records report a possible water shortage on Big Bar Creek.

Water Survey of Canada operated station 08MD011, Big Bar Creek near Jesmond, from April to September in 1979 and 1980. During this period, the station recorded a maximum daily discharge of 1.01 m³/sec on July 7, 1979. Mean monthly discharges reached a low of .110 m³/sec in August, and a high of .744 m³/sec in April.

Notes:

1. The Canoe Creek Band's application on Big Bar Creek, filed February 1, 1988 is still outstanding.

CANOE CREEK #3

Snardie and Tinmusket Creeks

History:

July 21, 1881

A Minute of Decision of the Indian Reserve Commission described a reserve with the same boundaries as Canoe Creek 3 and allotted,

"One hundred inches of water is set apart for the use of this reserve, to be taken from a small tributary of Dog Creek, which empties into it from the south, a short distance above Gaspards house."

Both Snardie and Tinmusket Creeks flow into Dog Creek from the south. Thus, the small tributary of Dog Creek referred to in the Minute of Decision could be either Snardie or Tinmusket Creek.

Sept 17, 1923

At a final hearing before the Board of Investigation, acting under the Water Act of 1914, the Board determined *"that a valid water record affecting the said claim was made under authority of an Act passed prior to the 12th day of March, 1909, and that, under the said water record, the Canoe Creek tribe or band of Indians was granted a right to take and use water from Tinmusket and Snardie Creeks, tributaries of the Fraser River, for irrigation and domestic use on the Canoe Creek Indian Reserve, being Reserve No.3 of the said tribe or band."* The Order of the Board, numbered 8016, set out that a Conditional Water Licence should be issued which would:

- (i) provide for the diversion of water from Tinmusket and Snardie Creeks,
- (ii) take precedence from the 23rd day of February, 1891,
- (iii) authorize diversion of a maximum of 672 acre feet per annum for irrigation of 224 acres of Canoe Creek Reserve No. 3, provided that 3,000 gallons a day of water could also be used throughout the year for domestic purpose.

Mar 2, 1925

The Comptroller of Water Rights issued Conditional Water Licence 7966, which embodied the terms and conditions set out in Board Order 8016.

Oct 31, 1934

The Comptroller of Water Rights granted an extension of time for completion of works to December 31, 1938 regarding Conditional Licence 7966.

May 1, 1940

The Comptroller of Water Rights issued Final Water Licence 10991 (in substitution of Conditional Water Licence 7966) to the Director of Indian Affairs on behalf of the Canoe Creek Band. This licence bears a date of precedence of February 23, 1891 and authorizes the diversion of 150 acre feet per annum from Tinmusket and Snardie Creeks, for irrigation purposes. The water may be used from April 1st to September 30th on 74.5 acres of the Canoe Creek Reserve No. 3.

A Right-of-way over Crown Land was issued with respect to Final Water Licence 10991.

A lesser quantity was authorized with the issue of Final Water Licence 10991 as being sufficient for the area to be irrigated. There is nothing on file to indicate why incidental domestic was not authorized as a purpose under the licence. The Engineer's report, dated November 30, 1939, for Final Water Licence 10991 noted that the supply of water was limited.

Jul 20, 1966

In accordance with an application for a change of works for Final Water Licence 10991, filed by Indian Affairs, the Deputy Comptroller of Water Rights issued an order authorizing the construction of a ditch. In connection with the amendment to Final Water Licence 10991, Permit Over Crown Lands 6156 was granted to the Canoe Creek Band. This permit authorized occupation of Crown Land for the construction and maintenance of works.

Sept 2, 1966

The Director of Indian Affairs applied for a water licence to divert and use water from Snardie and Tinmusket Creeks. The quantity of water to be diverted or stored is 350 acre feet for the purpose of irrigation on Canoe Creek Reserve No. 3.

Nov 15, 1968

A memorandum from the District Engineer gave comments and recommendations concerning the objection filed by Sun Cattle Company regarding the water licence application on Tinmusket and Snardie Creeks by the Director of Indian Affairs. The comments and recommendations were as follows:

- (1) In a letter to the Comptroller on February 6, 1967 (L.I. 3394282) the Superintendent of Williams Lake Indian Agency admits that a check of his files revealed that the Sun Cattle Company was not notified of this application within the specified period.
- (2) It is therefore recommended that the objection filed by the Sun Cattle Company be upheld, and the application filed by the Department of Indian Affairs on August 19, 1966 be refused on the

grounds that the applicant failed to comply with Section 2:04 of the Regulations.

- (3) In connection with this, see my report of even date for application 0270710 filed by the Sun Cattle Company on October 26, 1966 which recommends that a licence be issued authorizing the diversion of 300 acre feet and 6000GAD from Tinmusket Creek.
- (4) On January 19, 1967, the Director of Indian Affairs refiled their application on Tinmusket and Snardie Creeks. It is recommended that this application be granted with priority of January 10, 1967 as per original DER less Item (2) of same, submitted on July 25, 1968, for application 0270392. It is also recommended that the objection by the Sun Cattle Company to this latest application be refused since there is sufficient unrecorded freshet flow in this source to support the recommended short term diversion licence.

May 1, 1969

- 1) The Comptroller of Water Rights issued Conditional Water Licence 34441 to the Director of Indian Affairs, authorizing the diversion and use of water from Tinmusket Creek. The licence has a date of precedence of January 10, 1967 and allots 288 acre feet per annum (from April 1 to June 30) for irrigation purposes on 144 acres of Canoe Creek Reserve No.3.
- 2) The Comptroller of Water Rights issued Conditional Water Licence 34442 to the Superintendent General of Indian Affairs authorizing the diversion and use of water from Snardie Creek. The licence has a date of precedence of January 10, 1967 and diverts 62 acre feet per annum of water for irrigation purposes to be used from April 1, to June 30th. The land to which this licence is appurtenant to is Canoe Creek Reserve No. 3, Lillooet District, of which 31 acres may be irrigated.

A restricted irrigation period was authorized under Conditional Water Licences 34441 and 34442 due to there being insufficient water available in July, August and September to supply the prior existing water licences on Snardie and Tinmusket Creeks.

Nov 13, 1975

In accordance with an Application for Change of Works made by Department of Indian Affairs and Northern Development, on behalf of the Canoe Creek Band, the Comptroller of Water Rights issued an Order embodying the change of works for Final Licence 10991.

In connection with the amendment of Final Water Licence 10991, Permit Over Crown Lands 10235 was granted to the Canoe Creek Band in

substitution of Permit 6156. This permit authorized occupation of Crown Land for the construction and maintenance of works.

Current Status:

Snardie Creek

Final Water Licence 10991 and Conditional Water Licence 34442, both in the name of the Canoe Creek Band, are the only two active licences on Snardie Creek. There is no recent information on file with respect to the exercise of rights under these licences.

Water Licensing records report a possible water shortage on Snardie Creek.

Water Survey of Canada has no records for this creek.

Tinmusket Creek

There are 5 water licences on Tinmusket Creek. Of these licences;

- 1 authorizes the use of water for storage purposes, at 50 acre feet per annum.
- 3 authorize the use of water for irrigation, at 100 to 288 acre feet per annum.
- 1 authorizes the use of water for domestic, stock watering and irrigation purposes, at 2,000 gallons per day for domestic, 4,000 gallons a day for stock watering, and 300 acre feet per annum for irrigation.

Canoe Creek Band holds two licences on Tinmusket Creek, Final Water Licence 10991, which is first in priority, and Conditional Water Licence 34441 which is fifth in priority. Water Survey of Canada has no records for this creek; however, water licensing records report a possible water shortage on Tinmusket Creek.

Notes:

1. The allocation of water from a tributary of Dog Creek, made by the Indian Reserve Commission, has not been formally recognized by the Province.
2. The issuance of Final Water Licence 10991 (which substituted Conditional Water Licence 7966) resulted in the loss of licensed water rights for the Canoe Creek Band.
3. Conditional Water Licences 34441 and 34442 were issued with restricted irrigation periods.
4. Under current licensing practices the incidental domestic purpose authorized under Conditional Water Licence 7966 would be issued for waterworks purpose. The amendment of this licence to irrigation and waterworks purposes could lead to designation of the Snardie and Tinmusket Creek drainage area as a Community Watershed under the Forest Practices Code. However, Final Water Licence 10991 has superseded Conditional Water Licence 7966, and does not include the 3,000 gallons a day allocation that was included in Conditional Water Licence 7966.

DOG CREEK #1**Harold Brook****History:****Mar 1, 1966**

The Comptroller of Water Rights issued Conditional Water Licence 30655 to the Director of Indian Affairs, authorizing the diversion and use of water from Harold Brook. The licence has a date of precedence of August, 18, 1964 and allots 12,000 gallons a day for waterworks purposes. The water may be used throughout the whole year and the land upon which the water is to be used and to which this licence is appurtenant is Dog Creek Reserve No. 1, Lillooet.

In connection with Conditional Water Licence 30655, Permit Over Crown Lands 6035 was granted to the Canoe Creek Band. This permit authorized a right-of-way over a portion of Lot 4894, Lillooet.

Indian Affairs had originally applied for the right to divert 80 gallons of water per minute, which is approximately 115,200 gallons a day; however, a lesser quantity was authorized with the issue of Conditional Water Licence 30655 as being sufficient for the area to be supplied

Current Status:

Conditional Water Licence 30655, held by the Canoe Creek Band, is the only active licence on Harold Brook. There is no recent information on file with respect to the current exercise of rights under this licence.

Harold Brook drainage area has been designated a Community Watershed under the Forest Practices Code.

Water Survey of Canada has no records for this brook and there is no other current information on file with regards to water availability.

Notes:

1. The issuance of Conditional Water Licence 30655 allotted 12,000 gallons a day instead of 80 gallons a minute, that was requested in the application.

DOG CREEK #1 and DOG CREEK #2**Dog Creek****History:**

July 19, 1881

A Minute of Decision of the Indian Reserve Commission described a reserve with the same boundaries as the Dog Creek 1 Reserve and allotted,

"100 inches of water are reserved for the use of the Indians, to be taken from Dog Creek."

Jan 9, 1891

By Order, the Lieutenant Governor-in-Council authorized that a grant of water rights be made in favour of the Canoe Creek Band for Dog Creek Reserve, in accordance with a notice of application filed by an Indian Agent. The Order in Council does not distinguish which Dog Creek Reserve.

"One hundred inches of water from Dog Creek, to be diverted at the heads of the two ditches now used."

The application from the Indian Agent was for 100 inches of water from Dog Creek; however, the Chief Commissioner of Lands and Works

recommended that 50 inches be sufficient. The Order in Council was granted in those instances where no objection existed.

Sept 17, 1923

At a final hearing before the Board of Investigation, under the Water Act of 1914, the Board determined "*that a valid water record affecting the said claim was made under the authority of an Act passed prior to the 12th day of March 1909, and that, under the said water record, the Dog Creek tribe or band of Indians was granted a right to take and use water from Dog Creek, a tributary of Fraser River, for irrigation and domestic purposes on the Dog Creek Indian Reserve, being Reserve No.1 of the said tribe or band.*" The Order of the Board, numbered 8004, set out that a Conditional Water Licence should be issued which would:

- (i) provide for the diversion of water from Dog Creek,
- (ii) take precedence from the 23rd day of February 1891,
- (iii) authorize the diversion of a maximum of 336 acre feet of water per annum for the irrigation of 112 acres of Dog Creek Reserve (No.1 Dog Creek), provided that 3,000 gallons of water a day, throughout the year, could also be used for domestic purpose.

Nov 3, 1924

The Comptroller of Water Rights issued Conditional Water Licence 7805, which embodied the terms and conditions set out in Board Order 8004.

Mar 13, 1925

An application for a water licence was made by Indian Agent, E. MacLeod, for works constructed under C.L. 7805, and works to be constructed under application of November 1924 for Dog Creek Reserve No.2. The application was for storage purposes, where the estimated area of the reservoir, when full, is one hundred and ten acres.

Mar 31, 1925

An objection was made from C.R. & F.R. Doxat regarding the application made by MacLeod, Indian Agent, for a right to store 400 acre feet of water out of Dog Creek, on the basis that there was not a sufficient amount of water available in Dog Creek.

Jul 24, 1925

A letter from the District Engineer, C. Varcoe, indicates that after his review of information obtained together with the evident storage facilities available, it was his advice was that the two applications, filed by Indian Agent Macleod, should be granted.

Jul 30, 1925

A letter from the Comptroller of Water Rights to the Honourable Minister of Lands, regarding files 059384 & 058104, indicates that "*the objections to the applications having been dismissed on grounds that the licence holders on the creek are protected by virtue of the priority of their rights, it is recommended that the applications be granted.*"

- Sept 25, 1925** The Comptroller of Water Rights issued Conditional Water Licence 8168 to the Indian Agent, MacLeod, *'in trust for the Indians.'* The licence was given a date of precedence of Nov. 4, 1924 and authorized the maximum diversion from Dog Creek to be 210 acre feet per annum, (the maximum quantity per acre being 3 acre feet), for irrigation and of this quantity, 5,000 gallons per day was authorized for domestic use. The water was allotted for use on 70 acres of Dog Creek Reserve No. 2. to be used from April 1 to September 30.
- Nov 20, 1925** The Comptroller of Water Rights granted a Right-of-Way permit over Crown Land to Ewan MacLeod, Indian Agent, in connection with Conditional Water Licence 8168.
- Mar 7, 1927** The Comptroller of Water Rights issued Conditional Water Licence 8765 on Dog Creek to the Superintendent-General of Indian Affairs. This licence was issued to supplement the diversion of water authorized under Conditional Water Licences 7805 and 8168. This licence was given a date of precedence of March 9, 1925 and authorized the storage of 400 acre feet per annum for irrigation, the reservoir was described as Gustafsen Lake. The water may be stored from October 1 to June 15 and is appurtenant to 112 acres of Dog Creek, Reserve No. 1, and 70 acres of Dog Creek, Reserve No. 2.
- Jun 20, 1934**
- 1) The Comptroller of Water Rights issued Final Water Licence 8847 on Dog Creek to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence No. 7805, bears a date of precedence of February 23, 1891 and authorizes the diversion of 118.5 acre feet of water per annum for the irrigation of 39.5 acres of Dog Creek Reserve (No. 1 Dog Creek), provided that of this quantity 2,000 gallons a day may be used for domestic purpose.
 - 2) The Comptroller of Water Rights issued Final Water Licence 8848 on Dog Creek to the Superintendent-General of Indian Affairs. This licence, issued in substitution of Conditional Water Licence No. 8168 bears a date of precedence of November 4, 1924 and authorizes the diversion of 121.5 acre feet of water per annum for the irrigation of 40.5 acres of Dog Creek Reserve No. 2, provided that of this quantity 3,000 gallons a day may be used for domestic purpose.
 - 3) The Comptroller of Water Rights issued Final Water Licence 8849 on Dog Creek to the Superintendent-General of Indian Affairs. This licence was issued in substitution of Conditional Water

Licence No. 8765. This licence bears a date of precedence of March 9, 1925 and authorizes the storage of 240 acre feet per annum in support of the diversion of water authorized under Final Water Licences 8847 and 8848 from Dog Creek. The water may be stored from October 1st to 15th June and the reservoir is in Gustafsen Lake.

A lesser quantity was authorized with the issue of Final Water Licences 8847, 8848 and 8849 as being sufficient for the area to be irrigated.

Sept 24, 1945

A letter from the District Chief Engineer indicated that he noticed a leak that had developed at the toe of the fill on the downstream side around the pipe outlet in the dam, at Gustafsen Lake.

Oct 1, 1945

It is noted that Mr. Armes, Ranch Manager of Diamond S Ranch, had the key to the lock on the dam, and that he has been cooperating with the Indian Agent on the distribution of the water from Gustafsen Lake. The Indian Affairs Branch holds Final Storage Licence No. 8849, and Final Diversion Licences 8847 and 8848 on Gustafsen Lake. There are no other storage rights held on Gustafsen Lake.

Feb 1, 1947

The Comptroller of Water Rights issued Conditional Water Licences 17615 and 17616 to the Director of Indian Affairs, in accordance with an application filed by the same office. Both licences bear a date of precedence of September 19, 1946.

- 1) Conditional Water Licence 17615 authorizes the diversion of 90 acre feet of water per annum from Dog Creek (from April 1 to September 30) for irrigation purposes on 30 acres of Dog Creek Reserve No. 1.
- 2) Conditional Water Licence 17616 authorizes the storage of 90 acre feet of water per annum in support of the diversion of water authorized under Conditional Water Licence 17615, from Dog Creek; the reservoir site is Gustafsen Lake.

May 20, 1947

The Comptroller of Water Rights received an application for a change of works for Final Water Licence 8848 from the Director of Indian Affairs on behalf of Canoe Creek Band and Diamond "S" Ranch Ltd. It appears that this application was never finalized.

Feb 18, 1954

A Certificate of Inspection indicates that the storage dam on Gustafsen Lake was considered in good condition.

July 15, 1971

The Comptroller of Water Rights issued Final Water Licence to Sun Cattle

Co. Ltd. This licence, issued in substitution of Conditional Water Licence 15866, was given a date of precedence of September 22, 1942, and authorized the diversion of 4 cubic feet of water per second from Dog Creek for power purpose. This licence was made appurtenant to a powerhouse site situated within Indian Reserve No. 1, Dog Creek, Lillooet District, and the power generated may be transmitted to and used on Lot 4, Group 6, Lillooet District.

July 15, 1971

The Comptroller of Water Rights issued Final Water Licence 21508 to Sun Cattle Company Limited. This licence was issued in substitution of Conditional Water Licence 15866, which was not appurtenant to reserve land. Final Water Licence 21508 authorizes the diversion of 4 cubic feet of water per second from Dog Creek and is appurtenant to a powerhouse site situated within Indian Reserve No. 1, Dog Cree, Lillooet District, and the power generated may be transmitted to and used on Lot 4, Group 6, Lillooet District.

June 18, 1993

Water Licence Administration recorded Final Water Licence 21508 as abandoned in accordance with an abandonment notice from James Cattle Company Limited, the owners of Lot 4, Group 6, Lillooet District, which stated that the company no longer had the power unit.

The Canoe Creek Band and Indian Affairs were not consulted with regards to the abandonment of Final Water Licence 21508.

Current Status:

There are 22 water licences on Dog Creek. Of these licences:

- 4 authorize the use of water for storage non-power purposes, from 39 to 353 acre feet per annum.
- 10 authorize the use of water for irrigation, from 7.5 to 183 acre feet per annum.
- 4 authorize the use of water for domestic and irrigation purposes, from 500 to 5,000 gallons a day for domestic and 118.5 to 284 acre feet per annum for irrigation.
- 2 authorize the use of water for irrigation and stockwatering at 500 to 1500 gallons per day for SW and 163.83 to 164 acre feet per annum for irrigation.
- 1 authorizes the use of water for land improvement at 0.00 total flow.
- 1 authorizes the use of water for domestic, stockwatering, and irrigation purposes at 500 gallons a day, 100 gallons a day and 13.75 acre feet per annum, in order.

Canoe Creek Band holds five licences on Dog Creek: Final Water Licence 8847, which is third in priority, Final Water Licence 8848, which is eighth in priority, Final Water Licence 8849, which is ninth in priority, Conditional Water Licence 17615, which is fourteenth in priority, and Conditional Water Licence 17616, which is fifteenth in priority.

Water Licensing records report a possible water shortage on Dog Creek and recently in 1993 a third party licence was granted on Dog Creek with the provision that the diversion of water authorized under the licence could be restricted or prohibited at any time in order to maintain a minimum flow in the stream for the preservation of fish life.

Water Survey of Canada operated station No. 08MD009 on Dog Creek near Dog Creek from 1928 to 1930. During this period, the station recorded a minimum daily discharge of .102 m³/sec (3.602 cubic feet/sec) on August 1, 1928 and a maximum daily discharge of .515 m³/sec (18.187 cubic feet/sec) on June 4, 1930. Mean monthly discharges reach a low .121 m³/sec in August, rise to a high of .325 m³/sec in June.

Notes:

1. The full quantity of water allotted by the Indian Reserve Commission from Dog Creek to the Canoe Creek Band, which is a greater amount than presently licensed, has not been formally recognized by the Province.
2. The quantity of water authorized for irrigation purpose from Dog Creek under the *Water Act, 1914* with respect to the Canoe Creek Band is 330 acre feet per annum, which is comparable to the amount of water granted by the Order of the Lieutenant Governor in Council (50 inches). However, the Indian Agent had originally applied for 100 inches of water from Dog Creek.
3. The issuance of Final Water Licences 8847, 8848 and 8849 (in substitution of Conditional Water Licences 7805, 8168 and 8765) resulted in the loss of licenced water rights for the Canoe Creek Band.
4. The Canoe Creek Band was not notified of the abandonment of Final Water Licence 21508 by James Cattle Company Limited on June 18, 1993.

OTHER INFORMATION:

Additional Water Records:

The *Schedule of Indian Reserves in the Dominion, 1913*, is a document published by the federal government, recording each Band's water allocations up to 1913. We believe these records are a compilation of Minute of Decisions, Order-in-Councils, and perhaps other documents; however,

as original copies of these documents are unavailable, the dates and information cannot be verified.

Allocations in the *Schedule of Indian Reserves in the Dominion* for the benefit of the Canoe Creek Band which are inconsistent with our findings are:

Reserve

Water Allocation

Canoe Creek 3

"20 inches of water recorded from a small stream running through the reserve."

The identity of the stream is unknown; however, no evidence can be found allocating water from any water source running through Canoe Creek 3.

A water allocation was made in the Minute of Decision of the Indian Reserve Commission, dated July 21, 1881, with respect to the Canoe Creek Band.

"A Reserve of 100 acres, situated on the first creek below "Haines Creek" on the right bank of the Fraser, to include all Indian Cultivation, and ditches in good survey shape.

Fifty inches of water are set apart from the creek flowing through this reserve for the use of the Indians."

No information could be located indicating that the Band occupies the area referred to in the Minute of Decision and there is no evidence of a reserve in the described area.

Additional fishing rights were allocated in the Minute of Decision of the Indian Reserve Commission, date July 21, 1881, with respect to the Canoe Creek Band.

"The exclusive right of fishing on both banks of the Fraser River, from a point 1/2 mile above the mouth of Canoe creek, down stream to a conical shaped rock in the middle of the river, a distance of about 5 1/2 miles."

"The right to fish in Green Lake situated 4 miles east of the 73 mile post on the Cariboo waggon road."

"Also the exclusive right of fishing on both banks of the Fraser river from the mouth of Dog creek to the mouth of Harpers Lake Creek, a distance of 1 1/2 miles."

Alternate Water Sources:**Groundwater Records:**

Review of records of the Groundwater Section finds evidence of one well on Dog/Canoe Creek Reserve No. 3 and six wells on Dog Creek Reserve No. 2. There is no groundwater information for the remainder of the Canoe Creek Band's reserves. The wells on Dog/Canoe Creek 3 and Dog Creek 2 yield from 5 to 15 U.S. gallons per minute. Further details are attached to this report. The extent to which these wells are utilized at this moment is unknown and as provision of this information is voluntary, it cannot therefore be assumed to be complete.

Municipal Water Supply:

At this time the potential for water supply from a municipality is limited as there are no municipal water systems in the proximity of the Canoe Creek Band's Reserves.

However, the Fraser River borders Dog Creek Reserve 4 and Canoe Creek Reserve 3. For this reason, the Fraser River is a possible water supply option for the Canoe Creek Band. Water Survey of Canada records show that gauging station No. 08MD013, operated on the Fraser River at Big Bar Creek between 1935 and 1972. Review of these records indicates that the Fraser River experienced extremely low flows during ice conditions in winter. The low mean monthly flow occurs in March at 519 cubic metres per second (equivalent to approximately 9.9 billion gallons of water per day), while the high mean monthly flow occurs in June at 3,940 cubic metres per day (equivalent to 74.9 billion gallon of water per day).

Summary of Water Rights Record

Canoe Creek First Nation

Water Source	Priority Date	Reserve Name	File No.	Document Type	Status	Superceded By	Licence PUC/MOD & OIC Allotments	Comments
un-named stream	1891/01/09	Canoe Creek #1		OIC			200 inches from a stream, with the right to store said water in a chain of lakes, and to tap said lakes in order to convey said 200 inches of water into Canoe Creek, and to take the same quantity out of Canoe Creek, subject to existing records.(converted equivalent=1332.8AF)	IRC Allocations: Not formally recognized by the Province.
Canoe Creek	1881/07/21	Canoe Creek #1	AGBC #590461	MOD			"100 inches of water"(converted equivalent=666.4AF)	IRC Allocations: Not formally recognized by the Province.
Canoe Creek	1924/11/04	Canoe Creek #1	0057969	CL 7943	Superceded	FL 10845	10,000 GAD Domestic 100.00 AF /Irrigation	
Canoe Creek	1924/11/04	Canoe Creek #1	0057969	FL 10845	Current		93.00 AF/Irrigation	FL10845 which substituted CL7943 resulted in the loss of licenced rights for the Canoe Creek Band.
Canoe Creek/Big Bar Creek/India	1988/02/01	Canoe Creek #1	3001166	Z 103469	Current		1,000.00 AF Irrigation	
un-named stream (may be Timaskin	1891/01/09	Canoe Creek #1		OIC			"20 inches of water"(converted equivalent=133.28AF)	Subject to existing records.

Water Source	Priority Date	Reserve Name	File No.	Document Type	Status	Superceded By	Licence PUC/MOD & OIC Allotments	Comments
Timaskin Brook	1931/03/20	Canoe Creek #1	0098587	CL 11033	Superceded	FL 10846	5,000 GAD/Domestic	
Timaskin Brook	1931/03/20	Canoe Creek #1	0098587	FL 10846	Current		5,000 GAD/Domestic	FL 10845 issued for waterworks purpose. The amendment of this licence for waterworks purpose could lead to designation of the Timaskin drainage area as a Community Watershed under the Forest Practices Code.
Village Spring	1963/06/26	Canoe Creek #1	0250713	CL 29527	Current		5,000 GAD/Waterworks	CL 29527 authorizes the diversion of water for waterworks purpose. Thus, Village Spring drainage area could be designated as a Community Watershed under the Forest Practices Code.
Grant Creek	1891/02/23	Canoe Creek #2	0241146	CL 7804	Superceded	FL 11576	3,000 GAD Domestic 135 AF/Irrigation	
Grant Creek	1891/02/23	Canoe Creek #2	0241146	FL 11576	Current		24.00 AF/ Irrigation	FL 11576 in substitution of CL 7804 resulted in a loss of licenced rights on Grant Creek with respect to the Canoe Creek Band.

~~Indians.~~

~~All the right to the waters of "White~~
~~Lake," "Carson," and "Coke-oil-a-mis"~~
~~Lakes, situate in the direction of the~~
~~70-mile line on the Caribou Haggan~~
~~road, with power to divert the same~~
~~through a low valley to the westward.~~

No. 3. -

A Reserve containing 5320 acres,
approximately, situated on the left
bank of Fraser river 3 miles below
Dog Creek.

Commencing at a post on the
left bank of Fraser river on the Northern
line of Township 8, Lillooet District;
thence due East an approximate
distance of 340 chains, to the North-
eastern corner of Section 31, Township
4; thence due North 160 chains; thence
due West an approximate distance
of 344 chains to the Fraser river; and
thence down the left bank of the said
river to the place of commencement.

One hundred (100) inches of
water is set apart for the use of
this reserve, to be taken from a
small tributary of Dog Creek, which
empties

Chinook Creek Indians.

— No. 3. — Continued. —

~~Every day and night the Indians, a short distance above Saspardo horses.~~

— No. 4. —

A Reserve of 100 acres, situated on the first creek below "Haines creek" on the right bank of the Fraser; to include all Indian cultivation, and ditches in good survey shape.

Fifty (50) inches of water are set apart from the creek flowing through this reserve for the use of the Indians.

— Fisheries. —

The exclusive right of fishing on both banks of Fraser river, from a point 12 mile above the mouth of Chinook creek, down stream to a conical shaped rock in the middle of the river, a distance of about 52 miles.

The right to fish in Green lake situated 4 miles East of the 73 mile post on the Britow waggon road.

Chinook

Gene Creek Indians.

Funeral Grounds.

A Grave-yard situated on the
left bank of Carice creek, $\frac{1}{2}$ a mile
from its mouth, marked by four stakes.—
1 chain North and South, by 2 chains
East and West.

A Grave-ward to the South of the
trail from Mr. Tard's Kenburgh's house
to the mouth of Mr. Cane creek, and
about 1 mile distant from the latter,
marked by four stakes, 30 links North
and South, by 30 links East and West.

Minutes of Decision.

Dog Creek Indians.

No. 1.

A RESERVE of 330 acres (approximate) situated on Dog Creek, about 3 miles from its mouth.

Commencing at a fir tree, the North-west boundary of Lot 4, Group 4, Lillost district, and running thence $S 28^{\circ} 30' W$. magnetic a distance of 6 chains 30 links to the South-western corner of the said lot; thence due South an approximate distance of 43 chains to a point due East of a fir tree, the South-eastern corner of Lot 3, Group 6; thence to the said fir tree, an approximate distance of 3 1/2 chains; thence along the boundary of the said lot 33 chains 25 links, to one of the corner posts of the said lot, as shown on plan; thence due North, an approximate distance of 37 chains, to a point due West of the starting point; and thence due East to the place of commencement.

100 inches of Water are reserved for the use of the Indians, to be taken from Dog Creek.

No. 2.

Dog Creek Indians.

No 2.

A Reserve of 540 acres, situated on Dog Creek, about 3 miles above the Indian village, and adjoining the Eastern boundary of Mr. J. Versepuches (better known as Gaspard's) pre-emption claim.

Commencing at a fir tree marked Indian Reserve, and running due South 10 chains; thence due East 90 chains; thence due North 10 chains; thence due West 90 chains; and thence due South 30 chains to place of Commencement.

No 3

A Reserve of 20 acres, situated on Dog Creek, about $\frac{1}{2}$ a mile above the cañon.

Commencing at a fir tree marked Indian Reserve, due North 20 chains; thence due East 10 chains; thence due South 20 chains; and thence due West 10 chains to point of commencement.

No 4

A Reserve of 400 acres, on the left bank of the Fraser river, immediately North of Dog Creek.

Commencing

Dog Creek Indian Reservation

— Ch. 2 — Continued. —

Commencing at the South-east corner of the Alkali Lake Indian Reservation, Thicket flat, and running due South 30 chains; thence due East 20 chains; thence due South an approximate distance of 100 chains to Dog Creek; thence down the right bank of Dog Creek to the Fraser river; thence up the left bank of the said river to the South-west corner of the Alkali Lake Indian Reservation; and thence up the ravine which forms the Southern boundary of the said Reservation to the place of Commencement.

Also the exclusive right of fishing on both banks of the Fraser river from the mouth of Dog Creek to the mouth of Harper Lake Creek, a distance of 12 miles.

A Grave-yard situated on Lot 8, Group 6, about 12 chains South-east of the North-west corner of the said lot, now the property of J. H. Co.

Commencing at a stake at the South-west corner, running due North 75 links; thence due East 75 links; thence due South 75 links; and thence due West 75 links to place of Commencement.

(1)

I have honour to report that Mr. H. Meason
Indian Agent, for this District, gave notice,
in the Govt. Gazette of March 20th 1889, and also
in the Kamloops Sentinel of similar date, of
his intention to apply to you for permission
to divert and use for the purposes of irrigation
on Indian Reserves in this District, certain water
as set out in his notice of Application.

Mr. Meason now applies for a Record to be
made of the various described applications.

The amount of water applied for,
in each case, as a rule is very small and
with few exceptions are not already
claimed by white settlers.

For your reference I have annexed the
original copy of notice of intention, and
my remarks on each application, and
enclose same herewith, awaiting your instructions
with regard Record.

The Hon. G. F. Vernon
Chief Commissioner of the
Provinces

I have the honour to be
Sir
Your obedient servant
H. Meason
Indian Agent

WATER RECORDER

Application for a Water Licence

WATER ACT

(Section 8)

I/we THE CANOE CREEK INDIAN BAND

(Full name or names, if land owned jointly.)

of GENERAL DELIVERY, DOG CREEK P.O. B.C. VOL 1J0

(Mailing address)

hereby apply to the Comptroller of Water Rights for a licence to {divert and use} water out of

BIG BAR LAKE

(Name of creek, lake, or spring.)

which flows THROUGH BIG BAR CREEK, LITTLE BIG BAR LAKE

(Direction of flow.)

and discharges into FRASER RIVER

to all persons affected.

and give notice of my application

The point of diversion }
The storage dam }

will be located at AN AREA BETWEEN LOT 4891 & LOT 1748

(Give distance and direction from some surveyed or known point.)

The quantity of water to be diverted or stored is 1000 ACRE FEET PER ANNUM

(Cubic feet per second, gallons per day, or acre-feet per annum.)

The purpose for which the water will be used is AGRICULTURAL IRRIGATION

The land or mine on which the water will be used is INDIAN RESERVE #1

(Full and correct legal description)

AND INDIAN RESERVE #2.

A copy of this application was posted on the 1 FEBRUARY, 1988

(Day.)

(Month.)

at the proposed point of diversion or site of the dam and on the land or mine where the water is to be used

and two copies will be filed in the office of the Water Recorder at CLINTON B.C.

British Columbia.
Objections to this application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C. V8V 1X5, within thirty days of the serving of a signed copy of the application.

Chief Agent
Applicant.

By _____
Agent.

Agent's address.

IMPORTANT

Every applicant must do the following:

- (1) Post the application on the ground; that is, in conspicuous places at or near the proposed point of diversion, site of the dam (if any), and place of use.
- (2) File two copies with the Water Recorder in whose district the point of diversion will be, within twenty days of the posting on the ground.
- (3) Within ninety days of the posting of the application on the ground, serve signed copies on all owners of land or mining property that will be affected physically by the proposed works or by the operation or utilization thereof, and on all licensees or prior applicants whose points of diversion are at or below the applicant's proposed point of diversion.

All copies must be signed and completed by filling in the blanks in the above form; and, in addition, the two copies filed with the Water Recorder must contain a sketch showing the applicant's land, the location of the point of diversion and the dam (if any), and all land touched or crossed by the works, and the additional information indicated on the other side of this form.

Both sides of the two copies filed with the Water Recorder must be fully and correctly completed or the application may have to be returned.

It is advisable to file the application with the Water Recorder as soon as possible after posting it on the ground because the date of filing will, in most cases, determine the priority of the licence that may be issued.

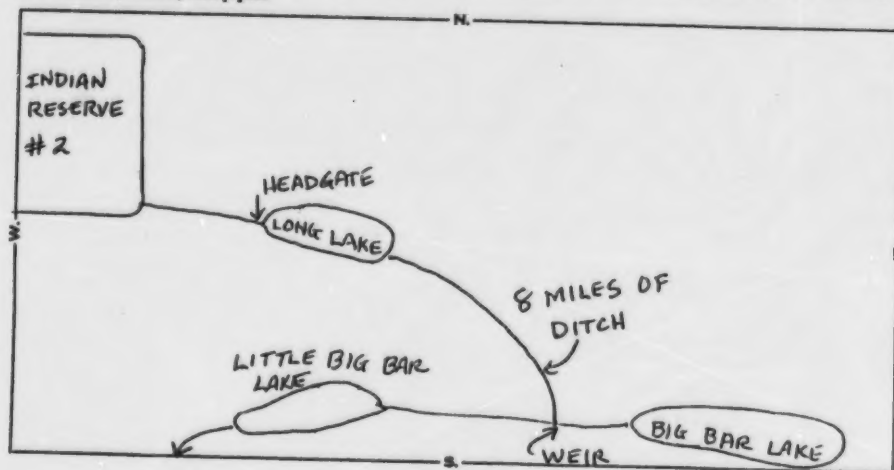

NOTE.—This sheet need only be completed on the two copies of the application filed with the Water Recorder.
To the Controller of Water Rights:

In support of my application for a water licence I submit the following information:—

- (1) My title to the place of use is REGISTERED INDIAN RESERVE LANDS
(Whether registered owner, agreement holder, pro-emptor, etc.)
- (2) The proposed works will be A DIVERSION WEIR DESIGNED BY A
(Give general description—pump, pipe, ditch, etc.)
PROFESSIONAL ENGINEER, A DIVERSION DITCH
AS SHOWN BELOW, AND A STORAGE RESERVOIR AT
LONG LAKE HAVING A HEADGATE FOR WATER CONTROL.
- (3) The dam to be constructed will be a LANDFILL dam, and
(Type.)
will be 20 feet in height, and 500 feet in length.
- (4) The maximum area of the reservoir will be 1000 acres.
- (5) The depth of storage at the dam, from bottom of sluice-pipe to crest of the spillway, will be 15 feet.
- (6) The head of water to be used will be N/A feet.
(For power and hydraulic mining only.)
- (7) The area of land to be irrigated will be 1000 acres.
- (8) (a) The works will be entirely on my own property, or
(b) The works will affect physically the property of the following owners:—

Name of Owner, including the Crown	Legal Description of Land	Area Required for Works	
		Length	Breadth
LOT #5 4891, 4414, 5155, 3194, 3193 2248, 2245, AND CROWN LAND BETWEEN LOT 221 & LOT 3194	RANGE LAND AND FORESTRY LAND BETWEEN BIG BAR LAKE AND LONG LAKE	8 MILES	6 FEET

Sketch, showing applicant's land and all other land touched by the works or flooded, also the location of the point of diversion and other works, including buildings to be served with water, if applicable, and the lengths of all ditches, flumes, and pipes.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Grant Creek, a tributary of Canoe Creek,

in the neighbourhood of Dog Creek, in the

Lillooet Water District.

NOW, on the 17th day of September, 1923, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and

designated as Indian File No. 9-20-11) that a valid water record affecting the said claim was made under the authority of an Act passed prior to the 12th day of March, 1909, and that, under the said water record, the Canoe Creek tribe or band of Indians was granted a right to take and use water from Grant Creek, a tributary of Canoe Creek, for irrigation and domestic purposes on the Canoe Creek Indian Reserve, being Reserve No. 2 of the said tribe or band.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:-

(a.) The source of the water supply is Grant Creek, a tributary of

Canoe Creek,

(b.) The point of diversion from the said source ^{is} ~~are~~ located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(c.) The date ^{from} ~~for~~ which the said licence shall take precedence is

23rd February, 1891.

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (g) of this clause, until lawfully altered,

is 135 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully

altered is 3 acre-feet: Provided that where

sources of supply other than those named in subclause (a) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (g) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(f.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(g.) The water may be used on the Canoe Creek Indian Reserve (No.2,

Canoe Creek) of which 45

acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(h.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(i.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1925, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(j.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(k.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No.8005.

Copy for 7804

(1.) The nature and the extent of the incidental uses permitted under the licence are: For

domestic purposes, the use of.....3,000.....gallons a day of water from any or
all the said sources of supply during the whole of the year; and for storage purpose, such
quantity of water (not exceeding.....acre-feet)
as, together with the natural flow-water used hereunder, will be necessary to secure
to the licensee the quantity granted hereunder. The water which may be so stored shall
be that of and it may be stored (accumulated) in a
reservoir at

.....between the first day of
October in each year and the first day of June in the succeeding year, and may be used
as provided for in subclauses (d), (e), and (f) of this clause, but such uses shall not
enlarge the quantity of water allowed by subclause (e) hereof.

(m.) The Board may extend the time for the commencement, resumption, or completion of
the execution of the works on being satisfied that it is in the public interest and that it
will not injuriously affect the rights of any licensee.

(n.) The licence shall not in any way be deemed to be a final licence for the use of water, but
shall have the effect only of a conditional licence issued under Part V. of the "Water
Act, 1914," and shall be subject to all the provisions of the said Act, including the filing
of proof of the completion of the said works and the putting of the water to such beneficial
use within the time limited by the provisions of section 117 of the said Act.

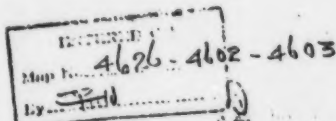

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this
order shall govern the respective rights of the record-holders or claimants affected thereby.

DETERMINATION AND ORDER

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Dog Creek, a tributary of Fraser River,

in the neighbourhood of Dog Creek, in the

Lillooet Water District.

NOW, on the 17th day of September, 1923, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 4-20-1) that a valid water record affecting the said claim was made under the authority of an Act passed prior to the 12th day of March, 1909, and that, under the said water record, the Dog Creek tribe or band of Indians was granted a right to take and use water from Dog Creek, a tributary of Fraser River, for irrigation and domestic purposes on the Dog Creek Indian Reserve, being Reserve No. 1 of the said tribe or band.

7805

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(a.) The sources of the water supply is Dog Creek, a tributary of Fraser

River.

(b.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(c.) The date ~~for~~ ^{from} which the said licence shall take precedence is

23rd February, 1891.

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (g) of this clause, until lawfully altered,

is 336 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully

altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (a) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (g) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(f.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(g.) The water may be used on the Dog Creek Indian Reserve (No. 1,

Dog Creek) of which 112

acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(h.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(i.) The execution of the said works shall be commenced or resumed on or before the first day

of June, 1925, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(j.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930.

(k.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Board Order No. 8004

7805

(1.) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 3,000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ----- acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ----- and it may be stored (accumulated) in a reservoir at -----

----- between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (d), (e), and (f) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (e) hereof.

(m.) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(n.) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

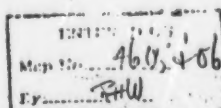

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

DETERMINATION AND ORDER

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1904."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Tinnusket and Snardie Creeks, tributaries of Fraser River,

in the neighbourhood of Canoe Creek, in the

Lillooet Water District.

NOW, on the 17th day of September, 1923, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 11-20-1) that a valid water record affecting the said claim was made under authority of an Act passed prior to the 12th day of March, 1904, and that, under the said water record, the Canoe Creek tribe or band of Indians was granted a right to take and use water from Tinnusket and Snardie Creeks, tributaries of the Fraser River, for irrigation and domestic use on the Canoe Creek Indian Reserve, being Reserve No. 3 of the said tribe or band.

7966

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(a.) The sources of the water supply are Timmuket and Snardie Creeks,
tributaries of the Fraser River.

(b.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(c.) The date ^{from} ~~for~~ which the said licence shall take precedence is.....

23rd February, 1891.

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (g) of this clause, until lawfully altered,

is 672.....acre-feet, and the maximum quantity
of water which may be used per annum on each acre actually irrigated until lawfully

altered is 3.....acre-feet: Provided that where
sources of supply other than those named in subclause (a) hereof are drawn upon for the
irrigation of a part or all of the same lands as are described in subclause (g) hereof, the
maximum quantity of water which may be used under the licence hereby directed to be
issued shall be reduced by the quantity which the licensee may be entitled to use from said
other sources of supply: Provided further that when the Engineer of the Water District
has accumulated the requisite hydrographic data for determining to the satisfaction of
the Comptroller the *pro rata* part of the said total quantity to be apportioned to the
licence hereby directed to be issued, the Comptroller shall require the surrender of the
licence, and shall amend the same by stating the particular quantity to which the licensee
is entitled from the particular sources named therein.

(f.) The period of the year during which the water may be used is between the first day of
April and the thirtieth day of September.

(g.) The water may be used on the Canoe Creek Indian Reserve (No. 3,
Canoe Creek) of which 224

acres are said to be irrigable. The extent and location of the said irrigable lands are more
particularly shown in the said Exhibit "A."

(h.) The works which are required to be constructed before the issue of a final licence are
the clearing, stumping, and levelling of the irrigable lands on the said reserve and the
additional works required for conducting thereto the maximum quantity of water hereby
authorized to be diverted.

(i.) The execution of the said works shall be commenced or resumed on or before the first day
of June, 1925, and shall be prosecuted with due diligence and in a workmanlike
manner and to the satisfaction of the Comptroller of Water Rights.

(j.) The said works shall be completed and the quantity of water to which the licensee is
entitled beneficially used for the purpose set out in the licence on or before the first day
of November, 1930.

(k.) Before any change is made in the said works which would be a material deviation from
the plans as approved or the works as accepted by the Comptroller, plans of such proposed
change must be filed with the Comptroller and approved by him.

7966

..... between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (d), (e), and (f) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (c) hereof.

(n.) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part 2 of the "Water Act, 1954," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 107 of the said Act.

(IRRIGATION.)

Appurtenant to 70 acres of Dog Creek Indian Reserve No. 2.

WHEREAS E. MacLEOD, Indian Agent, in trust for the Indians., whose
post-office address is Clinton, B.C.

as owner or lawful occupant of the land hereinafter specified, has applied for a licence to take and use
water in the manner hereinafter set out, and has taken all the preliminary steps required of such
applicant under the "Water Act" ~~1914~~ prior to the issue of this licence, and is, under the said Act,
entitled thereto:

Now, therefore, in pursuance of the said Act, this conditional licence is issued, granting the
licence hereunder the right to take and use water under the following terms and conditions:—

- (1.) The source of the water-supply is Dog Creek, tributary of
Fraser River.
- (2.) The point of diversion from the stream is located as shown in the exhibit marked "A"
hereto attached, which is incorporated herewith and made a part hereof, the original of
which is attached to the counterfoil of this licence on file in the office of the Comptroller
of Water Rights, Parliament Buildings, Victoria, B.C.
- (3.) The date from which this licence shall take precedence is 4th November, 1924.
Superseded by 8848
Final Licence
- (4.) The purpose for which the water is to be used is irrigation and incidentally domestic use.
- (5.) The maximum quantity of water which may be diverted for use upon the lands mentioned
in clause (7) hereof when all of the said lands are under irrigation is, until lawfully
altered, 210 acre-feet per annum, and such additional quantity as the District
Engineer may from time to time determine should be allowed for seepage and evaporation;
and the maximum quantity which may be used on any acre of the said lands in any year is
3 acre-feet: Provided that of the said 210 acre-feet there may be
used 5,000 gallons of water a day throughout the whole year for
domestic purpose.
- (6.) The period of the year during which the water may be used is 1st April to
30th September.
- (7.) The area and description of the lands upon which the water may be used are 70
acres, comprising part of Dog Creek, Indian Reserve No. 2.

The extent and location of the said irrigable lands are further shown in the said
exhibit "A."

8168

(8.) The said lands shall be properly prepared for irrigation and irrigated beneficially from the said works on or before the first day of November, 1925.

(9.) Works for the diversion and the carriage of the water as set forth in the exhibit marked "B" which is hereto attached made a part hereof shall be constructed in a workman-like manner and to the satisfaction of the Comptroller of Water Rights.

The said construction shall be commenced on or before the first day of November, 1925.

The said construction shall be prosecuted with due diligence and to the satisfaction of the Comptroller and shall be completed on or before the first day of November, 1925.

(10.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(11.) This licence is supplementary to Licence No. for the diversion of acre-feet per annum from and Licence No. for the diversion of acre-feet per annum from but no more than acre-feet of water (exclusive of the quantity allowed for seepage and evaporation) may be diverted from all sources for use upon the lands described in clause 7 hereof.

(12.) This licence is subject to readjustment when hydrometric surveys have been made of the sources of supply mentioned in clauses (1) and (11) hereof and complete information obtained respecting the requirements of all lands watered therefrom and the licensee shall surrender the licence for amendment when called upon to do so.

(13.) This licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part II. of the "Water Act," ~~1904~~ and shall be subject to all the provisions of said Act, including especially the provisions of section 71 thereof requiring the filing of proof of the completion of the said works and of making beneficial use of the water as authorized within the time herein prescribed.

DEPARTMENT OF LANDS, FORESTS, AND WATER RESOURCES

Permit under the "Water Act" Authorizing the
Occupation of Crown Land

Director of Indian Affairs _____, of Ottawa, Ontario _____

the holder of a water licence authorizing the diversion of water from Village Spring

is hereby authorized to occupy by constructing, maintaining and operating there-
on the works authorized under the said water licence, and any licences
which may be issued in substitution thereof,

the following Crown land, namely:— a portion of unsurveyed Crown land,
Lillooet District, being 2400 feet + in length and 15 feet in
width, the location of which is shown approximately on the plan
attached to the said water licence,

having an area of 0.8 + acres.

And, subject to the payment of royalty, stumping, and other compensation as provided under Condition 5,
is authorized to cut and remove from the said land any timber, the removal
of which is necessary to permit the construction of the said works.

There is payable in respect of this permit an annual rental of \$2.00 _____, which is subject to alteration
at any time. Failure to pay the annual rental will render this permit subject to cancellation.

This permit is appurtenant to the land to which the aforesaid water licence is appurtenant.

The conditions relative to the rights granted under this permit are printed on the back of this form.

Issued the 4th day of January, 19 65.
